

**2008 Legal Bridge Inspections**  
**Federal Highway Administration**  
**National Bridge Inspection Program**

**Unified Government of Wyandotte  
County / Kansas City, Kansas**

**DRG** was selected to perform the inspection of all the County bridges for the last four, two-year cycles. No other firm has performed more than two cycles, but our performance in conducting a thorough, complete inspection, along with developing new, innovative reporting, and management techniques earned us the unprecedented additional work.

As part of our inspection work, we are frequently called upon to provide design services for the rehabilitation and replacement of area bridges.
